SUMMARY

Results-driven Senior QA Engineer with 6+ years of experience in QA automation, manual testing, mobile testing, and API testing across Agile and DevOps environments. Proficient in test planning, automation framework design, and leveraging AI-powered testing tools. Proven track record in delivering high-quality software for enterprise-grade web, Android, and iOS applications.

SKILLS & TOOLS

Test Automation: Selenium, Cypress, Playwright, Appium, Autify (AI), TestCraft

Manual & Functional Testing: Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Exploratory Testing, Cross-browser Testing

API Testing: Postman, REST Assured, Swagger, JSON, XML, Backend Validations

Performance Testing: JMeter, BlazeMeter, AWS Load Balancer

AI-Powered QA Tools: Cursor AI, Kodium, Gemini, AI-based defect prediction

Platforms & Tools: BrowserStack, Android Studio, Xcode, Jira, TestRail, Zephyr

CI/CD & DevOps: Jenkins, GitHub Actions, Bitbucket Pipelines, Git

Databases: MySQL, Firebase, MongoDB

PROFESSIONAL EXPERIENCE

Aerchain

Senior QA Engineer | Aug 2024 – Present

- Designed and implemented Cypress & Playwright automation frameworks for 4000+ test cases.
- Used Cursor AI and GPT tools to accelerate test development and improve test coverage.
- Delivered enterprise-grade releases for clients such as Reliance, Brigade, and Danone.
- Built and automated backend API validations ensuring data accuracy across services.
- Mentored 3 junior QAs and conducted peer code/test reviews.
- Debugged flaky tests, improving CI/CD reliability and stability.

BankSathi

Senior Software Tester | Jan 2023 – July 2024

- Led mobile and web QA; automated regression suites using Selenium and Appium.
- Validated end-to-end UPI, card, and wallet transaction flows with 99.9% test reliability.
- Implemented intelligent test generation with Gemini and scriptless automation using TestCraft.
- Worked closely with dev and product teams for sprint stability and defect triage.
- Released 6 high-impact mobile updates with zero production defects.

ATOS

Test Engineer | Dec 2018 – Jan 2023

- Created test cases and executed both manual and automated test suites for enterprise apps.
- Integrated JMeter-based load testing to verify API scalability and performance.
- Maintained CI/CD pipelines for automation stability and consistent regression testing.
- Conducted white-box and black-box testing with detailed bug diagnostics.

PROJECTS & ACHIEVEMENTS

- Reduced regression time by 60% using AI-assisted test automation at Aerchain.
 - **Bug Hunter Award – Aerchain (Q1 2025):** Detected and resolved a critical production issue before a client demo.
 - **QA Star Performer – BankSathi (Q2 2023):** Successfully released key features with zero production bugs.
 - Automated 100+ manual test cases in under 30 days using Kodium.
-

EDUCATION

Bachelor of Technology (Mechanical Engineering)

Jawaharlal Nehru Technological University, Kakinada | Graduated: 2017
